

International IgA Nephropathy Network

IgANN
RESEARCH GROUP

Collaboration in patient-focused research

Do you want to collaborate on cutting-edge research in IgA Nephropathy?

The IgANN Research Group is a network of over 60 researchers worldwide. Through extensive collaboration we have developed unique multi-centre international databases and platforms to further research development and improve patient outcomes.

Learn how to partner with us!

Sept. 28, 2023
5-6pm
Tokyo

Join us at the 27th International Symposium on IgA Nephropathy for a special information session.

Presenters include Yusuke Suzuki (Japan), Sean Barbour (Canada) and Jonathan Barratt (United Kingdom).
